SUMMARY

Product-focused Full Stack Developer with 4 years of experience designing and delivering enterprise-grade web applications using **React.js, Node.js, MongoDB, and TypeScript**. Experienced in leading end-to-end feature development from requirement analysis to production deployment, ensuring scalability, performance, and code quality. Strong expertise in **micro-frontend architecture, RESTful APIs**, and secure authentication mechanisms. Proven track record of collaborating cross-functionally in Agile environments to drive production releases and enhance system reliability.

TECHNICAL SKILLS

Frontend Technologies: React.js, JavaScript (ES6+), TypeScript, Redux / Context API, HTML5, CSS3, Webpack Module Federation

Backend Technologies: Node.js, Express.js, Python, GraphQL, REST API Integration, MongoDB, JWT Authentication, Cron Jobs, GraphQL

Testing & Version Control: Jest, RTL, Git, GitHub

DevOps & Practices: CI/CD Fundamentals, Docker, Linux, Agile, Scrum

EXPERIENCE

Full Stack Web Developer

May 2022 - Present

Cognizant Technology Solutions - Client: United Health Group

Bangalore, India

- Designed and maintained enterprise-grade full-stack applications for a large-scale healthcare platform using **React.js, Node.js, MongoDB, and TypeScript**.
- Led end-to-end feature development from requirements to production deployment in Agile environments.
- Architected secure **RESTful APIs** with **JWT authentication**, ensuring scalable and reliable data access.
- Implemented **Micro-Frontend architecture** using Webpack Module Federation for independent deployments.
- Developed and managed **Cron Jobs** and backend services supporting automated workflows.
- Optimized data fetching strategies and API integrations, troubleshooting performance bottlenecks to improve application performance.
- Performed code reviews, mentored developers, and collaborated cross-functionally to ensure system stability.
- Key Contributions:**
 - Improved application maintainability by implementing modular architecture, reducing code duplication by 30%.
 - Enhanced scalability and deployment flexibility through adoption of **Micro-Frontend architecture**.
 - Enhanced application performance by optimizing **data fetching strategies** and API integrations in production environments.
 - Designed and implemented robust **GraphQL** schemas and resolvers to streamline data retrieval across complex micro-frontend services.

Intern

Jan 2022 - Apr 2022

Cognizant Technology Solution

Bangalore, India

- Developed responsive UI components using HTML, CSS, and JavaScript.
- Gained exposure to Python basics, and debugging practices.

EDUCATION

Veer Surendra Sai University of Technology

Odisha, India

Bachelor of Technology, Electrical Engineering

2018 - 2022

CERTIFICATIONS

- AZ-900:** Microsoft Azure Fundamentals
- DP-900:** Microsoft Azure Data Fundamentals
